THE LITTLE LABORER.

A tiny man, with fingers soft and tender,
As any lady's fair;
Sweet eyes of blue, a form but frail and slender,
And curls of sunny hair.
A household toy, a fragile thing of beauty—
Yet with each rising sun
Begins his round of toil—as is his duty,
That must be daily done.

To-day he's building castle, house and tower,
With wondrous art and skill;
Or labors with his hammer by the hour,
With strong, determined will.
Anon, with loaded little cart, he's plying
A brisk and driving trade;
Again, with thoughtful, earnest brow is trying
Some book's dark lore to read.

Now, laden like some little beast of burden,
He drags himself along,
And now his little lordly voice is heard in
Boisterous shout and song—
Another hour is spent in busy toiling
With hoop and top and ball—
And with a patience that is never failing,
He tries and conquers all.

But sleep at last o'ertakes our little rover,
And on his mother's breast,
Toys thrown aside, the day's hard labor over,
He sinks to quiet rest;
And as I fold him to my bosom, sleeping,
I think, 'mid gathering tears,
Of what the distant future may be keeping
As work for manhood's years.

Must he with toil, his daily bread be earning,
In the world's busy mart,
Life's bitter lessons every day be learning,
With patient, struggling heart?
Or shall my little architect be building
Some monument of fame,
On which, in letters bright with glory's gilding,
The world may read his name?

Perhaps some humble, lowly occupation,
But shared with sweet content;
Perhaps a life in loftier, prouder station,
In selfish pleasure spent.
Perchance these little feet may cross the portal
Of learning's lofty fane,
His life's work be to scatter truths immortal
Among the sons of men!

Whate'er thy lot, O blissful little sleeper,
Where'er thy feet may roam,
When life is done, and Death, the world's great reaper,
Shall call thy servant home,
Mayst thou go then as sweetly to thy slumbers,
Earth's toy's lay gladly down;
Then rise, to wear 'mid heaven's angelic numbers,
A starry, radiant crown.!

Round Dances.

In a letter, Eli Perkins gave his opinion of round dances as follows:

Yesterday I asked a young lady if she danced round dances.

"Yes," she replied, "with my intimate friends. I don't dance them with strangers."

Happy and good young lady. She don't let only her intimate friends put their arm around her. None but intimate friends can hold her hand and draw her swelling bosom to his. Oh, no! Strange young fellows from Hoboken can't come up on a first introduction and encircle her in their arms—unless they are good looking and practiced in the subtle arts of the Brown Boys.—This good young lady is the only girl in Saratoga who will not gladly permit an entire stranger to be presented, and then—fall squarely into his arms. O tempora, O mores! I guess old Cicero would have exclaimed worse than that if he had seen Miss Cicero Africanus, three minutes after a Coliseum introduction. Now, my dear mother in Israel do you think all this is just right? It is the ritual of society, I know; but can't society have its false dogma as well as religion? If it is wrong for a fellow to even touch a young lady's hand in the parlor, is it altogether right for a stranger to encircle her in his arms in a ball room? Don't, my dear mother, think for a moment that we fellows dislike it! Don't think that we are not willing to clasp your daughters to our aching hearts, for we are. We can hold them in our arms for hours, and never tire of the delightful amusement. Don't think we are sick of it, but with us it is a question of morality. We want to be good.

To persons concerned about their physique, it may be interesting to know that "medicated shirts" are announced as the surest general curative. It is claimed that persons wearing these can dispense with all the pills that flesh is heir to.

Scarlet flannel skirts are again in vogue, and it will require the careful scrutiny of the most experienced engineer to tell whether the red object he sees fluttering in the distance is a danger-signal, or a woman shooing her geese off the track.

A Frenchman has invented a machine by which the pulse of the wrist is made to trace wave-like lines upon paper, from which, it is said, the slightest irregularity in the action of the heart may be detected.

The Man of Long Life.

He has a proper and well proportioned statue, without, however, being too tall. He is rather of the middle size, and somewhat thick set. His complexion is not too florid; at any rate, too much ruddiness in youth is seldom a sign of longevity. His hair approaches rather to the fair than the black; his skin is strong, but not too rough. His head is not too big; he has large veins at the extremities, and his shoulders are rather round than flat. His neck is not too long; his abdomen does not project, and his hands are large, but not too deeply cleft. His foot is rather thick than long; and his legs are firm and round. He has, also, a broad, arched chest, a strong voice, and the faculty of retaining his breath for a long time without difficulty. In general, there is a complete harmony in all his parts. His senses are good, but not too delicate; his pulse is slow and regular. His stomach is excellent, his appetite good, and his digestion easy. The joys of the table are to him of importance; they tune his mind to serenity, and his soul partakes in the pleasure which they communicate. He does not eat merely for the pleasure of eating, but each meal is an hour of daily festivity; a kind of delight, attended with this advantage, in regard to others, that it does not make him poorer, but richer. He eats slowly, and has not too much thirst. Too much thirst is always a sign of rapid self-consumption. In general, he is serene, loquacious, active, susceptible of joy, love and hope; but insensible to the impressions of hatred, anger and avarice. His passions never become too violent or destructive. If he ever gives way to anger, he experiences rather a useful glow of warmth, an artificial and gentle fever without an overflow of the bile. He is fond, also, of employment, particularly calm meditation and agreeable speculations, is an optionist, a friend to Nature and domestic felicity, has no thirst after honors or riches, and banishes all thoughts of to-morrow.

BOYS AND THEIR MOTHERS.—Some one has written beautifully to the boys in the following manner—a whole sermon in a few sentences:

"Of all the love affairs in the world, none can surpass the true love of the big boy for his mother. It is love pure and noble, honorable in the highest degree to both. I do not mean merely a dutiful affection. I mean a love which makes a boy gallant and courteous to his mother saying to everybody plainly that he is fairly in love with her. Next to the love of her husband, nothing so crown's a woman's life with honor as this second love, this devotion of son to her. And I never yet knew a boy 'turn out' bad, who began by falling in love with his mother. Any man may fall in love with the fresh-faced girl, and the man who is gallant with the girl may cruelly neglect the worn and weary wife. But the boy who is a lover to his mother in her middle age is a true knight who will love his wife as much in the sere-leaved Autumn as he did in the dasied Springtime."

The ex-Empress Eugenie's famous pearl necklace, now offered for sale, was composed of seven rows of pearls, each pearl being of the size of a large marrowfat pea. The clasp was an immense circular emerald surrounded with diamonds. It took the leading jewelers of Europe over three years to get together a sufficient number of pearls of the size and lustre required. The price paid for the necklace was $100,000. After the Empress' flight to England she sent it to London to be sold. It was purchased by the King of Holland, who presented it to the celebrated Mme. Musard. After the death of this lady, it figured in the sale of jewels, and was bought by a dealer in second-hand goods, in whose possession it still remains. The price now demanded for it is less than half its original cost, being $45,000.

A young drug clerk committed suicide in Bristol a few days ago. At the inquest the Coroner asked a fellow-clerk of the deceased if he knew of any cause for the suicide. "No," was the reply; "he was getting along nicely, and was going to be married next month." "Going to be married, next month, was he?" exclaimed the Coroner. "That will do. We've got at the bottom of this business.

A father in Maine, feeling that a young man was staying rather late in the parlor, and wishing to give him a polite hint thereof, went to the head of the stairs and called out, "here, young man, isn't it about time that you were going? Do you know it is 11 o'clock, and that you are burning out my gas?" The young man left, and has not returned.

The old lady who refused to ride in a mail coach because she didn't think it right to ride altogether with gentlemen, is here, and she holds her daughter's opera cloak every night, while she dances with the "hugging" Brown boys—De gustibus, etc. Hugging is a terrible word, but we are dealing with terrible facts.

Inflated rubber bustles are causing some grumbling. It takes a young husband with weak lungs half an hour to blow his wife up to a fashionable rotundity.

Compounding Interest.—The following item from the S. F. Call shows the beauties of compounding interest:

Judge Edmunds has given the French Bank judgment against Alfred Wheeler et al. for $126,832 03 on promissory notes, together with $2,500 counsel fees and costs, and for foreclosure of mortgage on 209 acres of land, being a part of the Rancho Nisitacion, San Francisco and San Mateo counties. One note was executed on September 17, 1872, for $11,000, at one per cent. per month interest, compounding; one on the 6th of August, 1875, for $39,000, at ten per cent. interest, compounding, and one on the 10th of June, 1872, for $22,030, with interest at the rate of one per cent. per month, compounding. In December, 1876, plaintiff paid taxes on the property amounting to $1,062 50, which drew interest at the rate of two per cent. per month, compounding.

The Nevada Transcript says: Friends of his residing here, state that a well-known business man of Grass Valley, who left for San Francisco over a week ago, has mysteriously disappeared, and they fear that harm has befallen him. He carried a considerable sum of money to the Bay with him and left it in charge of a friend there, shortly after which time he was missed. A diligent search as to his whereabouts has been instituted, but up to Tuesday without good results. The gentleman is engaged to be married to a well-known young lady of the county.

The Modesta Herald says: W. B. Rice of this place, inventor of the combined header and thresher, has invented another machine which we think is bound to be a great success.] The new invention is a band sickle for mowers and headers, operating somewhat on the principle of the blades of scissors. Among the farmers who have examined the sickle are a large number of practical men who are largely pleased with it, and predict great succes of the new invention.

The Humboldt Times says: A gentleman informs us that a farmer near Rohnerville was greatly damaged by rats. Going to his barn he saw large numbers of them scampering at his approach. On watching their movements he saw them making toward the roof. They reached a place of shelter on the plate beam where they were crowded together like a swarm of bees. The farmer went for his shot gun and gave them the contents of it. Twenty-one rats was the product of one charge.

One of the largest lumps of solid gold ever seen in San Francisco was on exhibition at the office of the Pacific Refinery, corner of Montgomery and California streets, for a short time Saturday. It was about fourteen inches long by seven in width, and six in height. Its value was estimated at $55,000.

BE UNITED.

Now and then we hear Republicans express themselves plainly on the Presidential question as to their preferences for the nomination to be made at Chicago, that if such a one is nominated they will not vote for him. Now we read that there are Republicans in Butte county who declare that if Grant is nominated they will not support him. This should not be. It is not to be expected that the man that will be successful in receiving the Republican nomination for President will be, before the Convention meets, the choice of every Republican in the country. Every candidate has his warm and tried friends, but when the nomination is made, those who have failed in getting their favorite at the head of the ticket, should fall into line just as quickly as though their own man had been successful. The coming Presidential contest is too important to higgle about this man and that. We prefer John G. Blaine for President, to any man named in that connection, but if the Convention sees fit to give the nomination to another, that one will have our warmest support, let him be whom he may, as we know it will not pronounce in favor of any but a good man—a patriot and Statesman, a man that every true Republican who has the welfare of the country at heart can heartily endorse. We do not wish to see General Grant again placed in the pool of politics. He has served the country in the field and won the highest honors as a soldier, and he served us two terms in the White House with credit to himself and honorable to the country, and no third term can add to his fame in any particular, and we regret that bad advisers have made him a candidate for a nomination at Chicago. California is vitally interested in this contest, on account of the Chinese question, and it is to her interest to have the nomination of the Republican Convention fall upon the stalwart shoulders of James G. Blaine, who has proven himself unmistakably, the friend of Californians in their dislike of the Chinese. With Mr. Blaine in the White House California would find a willing ear to her greviances and willing hands to assist us out of our Chinese troubles, so far as he would be able to do so. It is patent to the general reader of the California press that Mr. Blaine is the choice of California Republicans, and that he will receive the vote of this State in the Chicago Convention, if her delegates are true to California's interests.

Money in San Francisco.—The Real Estate Circular, published in San Francisco says: The city is full of money just now. Much of it is in the owners' hands, too, they having drawn largely from the savings banks, in the unnecessary fear that if they did not draw their money before the Revenue bill passed, they could not get it without a deduction of about 2 per cent. to provide for the tax on deposits. As we elsewhere explain, the banks will have nothing to do with the tax. Many holders of money are anxious to put it into real estate, but they keep backing and filling, thinking property may yet go a little lower. One day they conclude to buy at once; the next day they think they will wait a little longer. The result of the election on the 30th ultimo may tend to make such undecided people invest at once. It may be that we have not yet touched the very lowest notch of prices, but certainly, to all human appearances, we have. There has not been as good a time to buy within twenty years. It should be remembered, too, that the taxation of mortgages, or money on hand, etc., will increase the public revenue greatly, and, therefore, very much reduce the taxes on real estate. Heretofore real property has borne about five-sixths of the entire burden of taxation; now it should not bear more than about one-third of it, even if the tax on savings bank deposits (which is the most odious feature of the Revenue bill), were abolished. This reduction of taxes on real estate cannot but effect its price favorably. The total number of sales made in March was 235, of the value of $953,833.

Hon. B. B. Redding, in the Rural Press, says that shellac and lackdye exists in the crude state and in great abundance in the deserts of Southern California and Arizona, extending as far north as Kern county. It is produced from the "Laurea Mexicana," or creosote plant, a shrub from three to ten feet high. The Indians use the lac to cement broken pottery, and to make watertight their wooden, grass and root baskets. The wholesale price of shellac in New York is from 25 to thirty cents per pound, and is mostly obtained from India;

Newcomb, Buchanan & Co., the great Kentucky distillers, who failed about two years ago, owing $1,500,000 played a nice April 1st joke on their creditor's by paying all their old debts on that day.

Migration to the United States is again on the increase, and extensive preparations therefor are being made in every part of Germany.

No less than 1,070,451 pieces of baggage were handled on the Pennsylvania Railroad lines east of Pittsburg during 1879, not one of which was lost, while the payments for old claims and damaged baggage amounted to only $413 31. When the Texas Pacific Railroad is completed to El Paso it will form a line 1044 miles in length.

Since Saturday, bills cannot be introduced into the Legislature unless by consen of a two-third vote.

The World has a special cable dispatch, announcing the successful embarkation of the obelisk for New York.

SHERIFF'S SALE.

SIXTEENTH DISTRICT COURT. NO.— Order of Sale and Decree of Foreclosure. J. H. PAGE, Plaintiff vs. A. P. DUERR, Defendant.

Under and by virtue of an order of sale and decree of foreclosure issued out of the District Court of the Sixteenth Judicial District of the State of California, in and for the County of Mono, on the 8th day of January A. D. 1880, in the above entitled action wherein J. H. Page, the above named Plaintiff obtained a judgment and decree against A. P. Duerr, Defendant, on the 8th day of January A. D. 1880, which said decree was, on the 8th day of January, A. D. 1880, recorded in Book A of said Court, at page 346 I am commanded to sell:

All that certain lot, piece or parcel of land situated in the County of Mono, State of California, and bounded and described as follows, to wit: All the right, title and interest of the within named defendant of, in and to the following described property, viz: A certain lot on the westerly side of Bodie Avenue, in the town of Bodie, Mono county, California, being fifty feet front on said Bodie avenue and running back westerly at right angles with said Bodie avenue, one hundred (100) feet, and adjoining on the north by a lot owned by James Welch and on the south by a lot owned by J. Glenn and opposite a lot owned by James Mc Varish, the same having thereon a frame house, twelve by sixteen feet.

Public notice is hereby given that on the TWENTY-SIXTH DAY OF APRIL A. D. 1880, at 12 o'clock M of that day, in front of the Court House, in the County of Mono, I will, in obedience to said order of sale and decree of foreclosure, sell the above described property, or so much thereof as may be necessary to satisfy plaintiff's judgment with interest thereon and costs, to the highest and best bidder for gold coin of the United States.

THE CHRONICLE.

BODIE, APRIL 6, 1880.

The CHRONICLE Office is on the second floor of "Goodson's Building," east side of Main street, between Standard Avenue and Green street.

JOB PRINTING.—Job printing of the finest description will be furnished at this office at Sacramento prices.

LOCAL INTELLIGENCE.

ARRIVED YESTERDAY.

W T Breunen, Miss Kittie Carroll, J H Frink W S Brown, P O'Byrnes. W A Johnson, Frank Boller, John Kenyon.

DEPARTURES YESTERDAY.

Mrs McCarty, Mrs M A Waite, J D Atchison H Kern, H R Waite. A Z Ross.

CONVALESCENT.—The many friends of Mrs. J. W. Ward will be pleased to learn that she is much improved in health, having been confined to her bed for the past week. Mrs. Ward is one of the first ladies who settled in Bodie.

We are also pleased to note that Mrs. Finley, who has been very low with pneumonia, is convalescent.

ANOTHER "SKIP."—Some of the victimized offer a suitable reward for a knowledge of the whereabouts of an individual, who styled himself the "War Horse of the Hills," who has skipped the town. This skipper was not a member of the Typographical Union of Bodie, but he is supposed to have gone to the same place—Virginia City.

THE BODIE WATCH.—L. Hollander has received an invoice of the "Bodie Watch," manufactured at Rockford, Illinois. These are splendid watches, made expressly for this market and are correct time keepers, and adapted to any climate or altitude. Go, see and buy one!

PAY DAY.—Yesterday being pay day, last evening the town was quite lively, many being on the streets feeling quite "happy," but nothing serious had grown out of such "happiness" at midnight. Our officers were on the alert and ready to put a stop to any disturbance likely to occur.

FINE CONFECTIONARY.—Mrs. Swan has opened a confectionary store in Abbot's building on Mill street, between Standard Avenue and Mill street. She intends to keep a fresh supply at all times at reasonable prices.

THE COURTS.—The Courts had but little business yesterday. Justice Newman fined one individual $200 for a misdemeanor—a slight family row. Another paid $25 for the luxury of discharging a shotgun in the streets.

BULLION SHIPMENTS.—The following are the bullion shipments of yesterday: Standard, bar No. 197, $7,234 49; No. 198, $22,836 —a total of $30,070 36. Bulwer, bar, No. 18, $8,781 78. Bodie Nos. 169 and 170. $4,884 80—total $43,735 91.

INCREASE OF STOCK.—The Oro Mining Company has increased its capital stock from $10,000,000 to $13,500,000.

An important decision has just been rendered by the Supreme Court. An application was made to the Court for a writ of mandamus to issue to the Assessor of Stockton in the case of Hyatt vs Allen. The point of general interest in the decision is that the Constitution is in effect self-executing, and that provisions of the Political Code are not in conflict therewith. It therefore follows that no legislation is necessary to direct Assessor how to proceed. They are to assess all property and to ascertain the value thereof under the existing laws.

Our wine interests are becoming of great importance, and France must look to its laurels. The Panama Star and Herald of March 11th says: The Pacific Mail steamer Colima on her present trip from San Francisco brought the largest shipment of California wines which has ever been made by one vessel. The total quantity was over 120,000 gallons. In addition two separate lots of 40,000 gallons each were offered for the same steamer, but could not be received for want of space.

LONG WINDED.—The speech of Senator Logan on the Fitz John Porter case is the longest ever published in the Congressional Record. It will occupy forty-eight pages. Its publication will be held for the execution of a map which is to go with it, showing the battle-ground where General Porter was alleged to have disobeyed orders.

The Sentinel says that an enterprising Eurekan, hearing that hundreds of cattle had died in the valleys north of that place during the Winter, started out to save the hides, and is said to be making two hundred dollars a day at the business.

A curious and fatal accident occured at White Salmon, Washington Territory, on 25th ult. Joseph Marks was engaged in cutting off a sapling which had been bent down by the snow, when the stump flew up, struck him on the head and killed him.

Ninety-seven of the 101 delegates comprising the Polk County Convention, Iowa, have been instructed for Blaine. The Polk county delegates, twenty-one in number, to the State Convention will be inclined to vote for Blaine.

The Kansas Convention adopted the following resolution in favor of Blaine: That he is the choice of the Republicans of Kansas for President of the United States, and we pledge him our united support.

On Friday last, at Emigrant Gap, an engine ran into and stove one side of a sleeping car, but fortunately the passengers were not injured.

OUR MINES.

STANDARD.

Wm. Irwin, Supt.

The east crosscut from the north drift, 500-foot level, is in 25 feet, showing a progress for the week of 15 feet. There has been no change to note in the character of the rock passed through during the week. The west crosscut is in 34 feet, progress since last report 14 feet. The character of the rock in this crosscut remains unchanged. The east crosscut from the south drift, 365-foot level, has connected with the north drift on West Standard vein; will finish putting in track and chutes in a few days. Upraise No. 2 from the south drift is above the level 119 feet; the ledge is 6 feet wide, and at this point is opening well, showing 6 feet of very rich ore. During the week timbering the north drift has prevented any work being done in the upraise, north drift, consequently there is no progress to report. The north drift, 300-foot level, incline, has advanced since last report 10 feet—total distance 242 feet; the ledge here is 3 feet wide of good milling ore. The south drift from the west crosscut is in 272 feet, making a progress for the week of 12 feet, the ledge in the face of this drift is 4½ feet wide of good ore. The north drift, 550 foot level, has been extended during the week 10 feet—total distance 142 feet; the ledge is 3½ feet wide, and looks well. There is no change to note in the character of the formation passed through by the crosscuts, 700 foot level. The shafting is making good progress. We are at present cutting out a tank station at the 800 foot level. The yield of ore from the different stopes throughout the mine is about the same as usual. in the stopes, north drift 385 foot level, the ledge is looking well. The West Standard vein is 5 feet wide of the usual high grade ore. The Gildea ledge, at the point where we are at present stoping is 4½ feet wide, of good milling ore.

BULWER.

Wm. Irwin, Sup't.

The north drift from the tunnel on the Ralston vein, is in 147 feet, showing a progress, since last report, of 12 feet; the ledge is 3 feet wide of good ore. The south drift has been extended during the week 10 feet—total distance from the tunnel 141 feet. The ledge in the face of this drift is 2½ feet wide, and looks well. There is no change to report in the appearance of the stopes. The vein in the Stonewell stopes is 2½ feet wide of good ore. In the Ralston, the ledge is 4 feet wide, and continues to look well.

SONORA CON.

During the past week the crosscut on the 100 level has been extended eight feet; making a total length of 164 feet. There has been no change since last report—rock continues very hard, with stringers of quartz coming in, all of which looks very favorably. There has been some necessary delay the past week, owing to preparations being made for the erection of hoisting machinery, which will be shortly received at the mine.

DOUBLE STANDARD.

Wm. Irwin, Supt.

The winze has reached a depth of 50 feet, progress for the week 15 feet; the ledge is 3 feet wide, and continues to look well, both in the size of the vein and quality of the ore. Since last report no work has been done in running the north drift, as it takes all the time to hoist the ore from the winze, through winze No. 1.

SUMMIT.

Wm. Irwin, Supt.

The north drift, 530 level, is in from the shaft 191 feet, progress for the past week 14 feet; the ledge is 2 feet wide. The south drift is in from the shaft 221 feet, progress since last report 25 feet; the ledge is about 3 feet wide.

In Ormsby Co., Nev., the rate of taxation for State, city and county purposes will be same this year as last—$3 25 on the $100.

MIDDLE-AGED MEN.

There are many at the age of thirty to sixty who are troubled with the frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty ignorant of the cause, which is the second stage of seminal weakness. DR. BENSONS CAPCINE POROUS PLASTER.

Positively the Best. The m'f'rs. were awarded the highest and only medal given rubber plasters, at both the Centennial and Paris Expositions. Widely and favorably known among physicians as a great improvement on the ordinary porous plaster. Ask any physician in your own locality about it. The valuable qualities of the common porous plaster are in this article increased 10 fold by new and scientific medication. It relieves almost at once and cures where other plasters fail even to relieve. It is without doubt the best remedy ever devised for Lame and Weak Back, Rheumatism, Spinal and Kidney Complaints and all local aches and pains. Avoid imitations. Sold by all Druggists. Price 25c.
